

Step-1: Add users

Step-2: Add user detail

The screenshot shows the AWS IAM console interface for creating a user. The breadcrumb navigation is 'IAM > Users > Create user'. The left sidebar shows a progress bar with four steps: Step 1 'Specify user details' (active), Step 2 'Set permissions', Step 3 'Review and create', and Step 4 'Retrieve password'. The main content area is titled 'Specify user details' and contains a 'User details' section. In the 'User name' field, the name 'Tom' is entered. Below this, there is a checkbox labeled 'Provide user access to the AWS Management Console - optional' which is checked. A blue information box contains the question 'Are you providing console access to a person?' with two radio button options: 'Specify a user in Identity Center - Recommended' (unselected) and 'I want to create an IAM user' (selected). Below the information box, there are two radio button options for the 'Console password': 'Autogenerated password' (unselected) and 'Custom password' (selected). The 'Custom password' option has a text input field below it.

Step-3:

The screenshot shows the 'Set permissions' step of the AWS IAM console. It features a checkbox labeled 'Users must create a new password at next sign-in - Recommended' which is checked. Below this, a blue information box contains the text: 'If you are creating programmatic access through access keys or service-specific credentials for AWS CodeCommit or Amazon Keyspaces, you can generate them after you create this IAM user. Learn more'. At the bottom right of the step, there are 'Cancel' and 'Next' buttons.

Step-4: (Add user group, copy permissions, attach policies directly)

The screenshot shows the 'Set permissions' step of the AWS IAM console. The breadcrumb navigation is 'IAM > Users > Create user'. The left sidebar shows a progress bar with four steps: Step 1 'Specify user details', Step 2 'Set permissions' (active), Step 3 'Review and create', and Step 4 'Retrieve password'. The main content area is titled 'Set permissions' and includes a sub-header 'Permissions options'. There are three radio button options: 'Add user to group' (selected), 'Copy permissions' (unselected), and 'Attach policies directly' (unselected). Below these options is a blue information box titled 'Get started with groups' with a 'Create group' button. At the bottom, there is a section for 'Set permissions boundary - optional' and 'Cancel', 'Previous', and 'Next' buttons.

Step-4: Review & click on Create user
